# Informed Consent

I consent to acupuncture treatment and related procedures associated with Traditional Chinese Medicine, by Rudy Ju-Hsun Lee, Registered TCM Practitioner and Registered Acupuncturist of British Columbia. I understand the methods of TCM Treatment may include acupuncture, acupressure, auricular acupuncture, moxibustion, cupping, gua sha, electrical stimulation, and Chinese herbal extract.

I have been informed that acupuncture is a safe method of treatment, but it may have minor side effects, including bruising, numbness at the needling points that may last few days, and in rare cases, dizziness or faint. This medical procedure uses sterile, disposable needles and maintains a clean and safe environment. After cupping or gua sha, there might be some bruising that may last for few days. I understand that while this document describes the major risks of treatment, other side effects and risks may occur.

The Chinese herbal extracts used are traditionally considered safe in the practice of Traditional Chinese Medicine. I understand that I might experience digestive upset or other reaction to herbal formulas. If I experience any discomfort related to the use of the herbal formulas, I will stop taking the herbs and inform TCM Practitioner of my symptoms. Some herbs may be inappropriate during pregnancy or breastfeeding. Please inform TCM Practitioner of suspected or confirmed pregnancy, or being a nursing mother.

I don not expect the TCM Practitioner to be able to anticipate and explain all possible risks and complications of treatment. I wish to rely on the Practitioner to exercise judgment during the course of treatment, and decide what he thinks is in my best interest, based on the facts that are known and given at the time.

I have read and understand all of the above information. I have been informed about the risks and benefits of acupuncture and other treatments. I hereby authorize TCM Practitioner Rudy Ju-Hsun Lee to perform acupuncture and alternative Chinese Medicine treatments.
